Kyungbok University Ranks No. 1 in University Internationalization at THE 2026 NYF-K-NBA Korea National Brand Awards, Marking Third Consecutive Year of Recognition

Following awards in 2024 and 2025, Kyungbok University has received national brand recognition for a third consecutive year, this time in the University Internationalization category.

Kyungbok University, led by President Ji-Yong Jeon, announced that it was ranked No. 1 in the "Internationalization of Universities" category at THE 2026 NYF-K-NBA Korea National Brand Awards.

After receiving awards in the University College category in both 2024 and 2025, Kyungbok University was recognized in the University Internationalization category in 2026. The latest award marks the university's third consecutive year of recognition and reaffirms its position as a leading university brand in Korea.

Now in its 17th year, the NYF K-NBA Korea National Brand Awards recognizes brands considered to possess significant value and competitiveness as national assets. The awards honor institutions that demonstrate sustained innovation and achievement across fields such as education, industry, and culture.

President Ji-Yong Jeon said, "Our efforts to cultivate globally competent citizens, grounded in Kyungbok University's vision, professional expertise, and entrepreneurial spirit, have resulted in recognition for three consecutive years." He added, "To further realize our vision, 'Transforming Potential into Professional Expertise,' we will continue to strengthen industry-demand-driven, on-demand curricula and personalized career development systems."

Kyungbok University continues to pursue educational innovation based on artificial intelligence (AI) and digital twin technologies. Through its AI Digital Twin Research Institute, the university collaborates with industry, academia, and local communities on applied research focused on solving real-world challenges. It also develops advanced interdisciplinary professionals through a professional master's degree program specializing in AI-based extended reality (XR) simulation content technology.

In addition, the university is strengthening talent development in response to the needs of regional strategic industries through its participation in the Ministry of Education's RISE (Regional Innovation System & Education) initiative. By expanding industry-academia collaboration projects, Kyungbok University is also working to establish a model in which the university and its surrounding region grow together.

According to Korea's official higher education disclosure data, Kyungbok University recorded the highest overall employment rate among

universities in the Seoul metropolitan area in the specified comparison groups: institutions with 2,000 or more graduates from 2017 to 2022, and institutions with 1,000 or more graduates in 2024 and 2025. The university cites approximately 8,400 industry-academia partner companies, overseas employment support programs, and customized career and employment services as key factors supporting its practice-oriented educational competitiveness.

In 2024, Kyungbok University also provided approximately KRW 25.3 billion in scholarships, with an average of KRW 4.258 million in scholarship support per enrolled student. The scholarship recipient rate reached 93.3%. The university continues to expand student support services, including dormitory accommodations, commuter bus services, and overseas field-learning programs.

Building on this recognition, Kyungbok University plans to further advance its AI-driven educational innovation and regional innovation model as it seeks to strengthen its global competitiveness in developing practice-oriented professionals.

Kyungbok University Empowers International Students at '2026 Global Talent Fair' to Boost Global Career Opportunities

Around 20 GKS scholars participate in targeted corporate interviews and customized career consulting to sharpen practical employment skills

On June 1, Kyungbok University actively participated in the '2026 Global Talent Fair for International Students,' the largest job fair of its kind in South Korea.

The event saw enthusiastic participation from around 20 Global Korea Scholarship (GKS) international students from Kyungbok University, all driven by a strong passion for starting their careers in Korea. The students engaged in a variety of meaningful activities, including recruitment interviews and corporate briefing sessions with major

ISSUE 02

domestic companies, alongside career lectures and legal visa consultations.

Celebrating its 18th anniversary this year, the 'Global Talent Fair for International Students' stands as the nation's premier recruitment platform dedicated to foreign students seeking local employment. This year's fair featured approximately 100 prominent domestic enterprises conducting face-to-face job interviews and company-specific information sessions to scout top-tier global talent.

Kyungbok University students took a highly proactive approach to the job market by pre-applying for interviews and undergoing rigorous on-site screenings. Recognizing that the South Korean corporate hiring culture can be unfamiliar to international students, the university ensured students maximized their experience by participating in diverse, practical sessions, including: special industry-specific employment lectures, 1-on-1 personalized career consulting, residential visa and immigration counseling and comprehensive introductions to government-sponsored employment tracks.

An official from the Kyungbok University Office of International Education emphasized:

"We hope this fair provided a valuable, hands-on opportunity for our GKS international students to break through barriers into domestic companies and gain practical job readiness."

"Kyungbok University remains fully committed to expanding multifaceted career support initiatives, ensuring that talented minds from all corners of the world can seamlessly integrate into Korean society and thrive as elite global professionals."

Participants pose for a group photo after Kyungbok University's K-Culture Experience Program in Seongsu, Seoul. (Photo courtesy of Kyungbok University)

Kyungbok University Successfully Concludes K-Culture Experience Program in Seoul's Seongsu District as Part of International Summer Study Tour

Twenty-three participants, including international students, experienced K-pop culture firsthand through idol-style makeup instruction, choreography training, and short-form challenge video production.

Kyungbok University announced that it successfully concluded a K-Culture Experience Program on June 25 at K-Pop Arcade Co., Ltd. in Seongsu-dong, Seoul. The event was organized as part of the university's "Summer Study Tour," a short-term international study program for overseas participants.

The program was designed to give students firsthand experience of K-beauty and K-pop, two prominent aspects of contemporary Korean popular culture with strong global appeal. It also aimed to strengthen participants' intercultural awareness and global competencies through experiential learning.

A total of 23 participants, including Kyungbok University staff and students, took part in the program. Participants received professional instruction in K-pop idol-style makeup based on concepts used by K-pop artists. In a professional studio, they also learned choreography for a newly released song and filmed their own short-form dance challenge videos. All participants took part in the program activities.

Masha, a 32-year-old international student from Russia, said the experience was especially meaningful because it allowed her to learn Korean idol makeup techniques

and choreography in a professional studio—activities she had previously seen only in videos—and to produce her own challenge video. She expressed gratitude to the university for giving her what she described as the special experience of feeling like a K-pop idol.

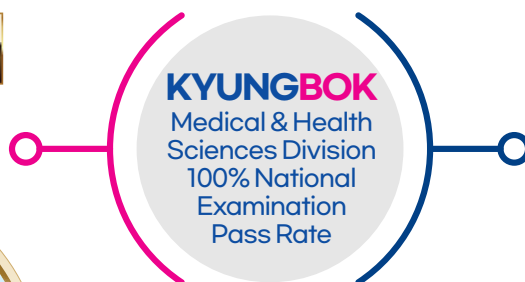

A Kyungbok University representative said the program was designed to provide students with a meaningful opportunity to experience Korea's dynamic popular culture firsthand, broaden their global perspectives, and interact with one another. The university plans to continue expanding diverse, innovative, and field-based experiential programs to strengthen students' creative competencies and enhance its institutional brand value.

Top Score on the National Examination 100% Nationwide Pass Rate

The Standard of Nursing, Kyungbok University College of Nursing, Department of Nursing

- ✓ Equipped with state-of-the-art practice facilities including Simulation Education & Research Institute for Nursing (SERIN), Nursing Science and Nursing Care Center (NSNC), Integrated Simulation Center, Clinical Skills Center, and basic nursing practice rooms.
- ✓ Acquisition of Nurse License, Health Teacher Certification, BLS Provider/ACLS Provider

Kyungbok University's Distinguished Alumni

Exceptional talents who have elevated Kyungbok University's reputation

Outstanding Graduate Employed at a Korean Plastic Surgery Clinic - Kacmaz Sevgi

Kacmaz Sevgi, a Turkish student who entered the Department of Medical Aesthetics at Kyungbok University in 2022, completed the three-year program with excellent grades. She is now working at Ruby Plastic Surgery Clinic in Gangnam while continuing her Advanced Major Program to further strengthen her professional expertise.

Exemplary Graduate Employed at a Korean Travel Agency - Guzel Ilayda

Guzel Ilayda, a Turkish graduate from the Department of Hotel Tourism, joined the English Language Program at MDIS Singapore in 2022 through Kyungbok University's Overseas Employment Support Program. She is currently an inbound manager at a Korean travel agency, contributing to the tourism industry with her multilingual skills.

Exemplary Graduate Employed at a Korean Plastic Surgery Clinic - Mae Fuka

Mae Fuka, a Japanese graduate who completed her studies in February 2025, is currently working at Dream Plastic Surgery Clinic in Korea. Utilizing her communication skills and professionalism, she is actively contributing to enhancing the global reputation of Korea's beauty and medical industry.

First International Student to Pass the National Dental Hygienist Exam - Netza Karen

Netza Karen, a student from Indonesia, grew through specialized knowledge and clinical practice at Kyungbok University and became the first international student to pass the National Dental Hygienist Examination. She is steadily working toward her goals and walking a path that brings honor to both herself and the university.

Mishra Bharti Passes the Occupational Therapist National Examination

Mishra Bharti, a student from India, transformed her dreams into conviction through her studies and various activities in Kyungbok University's Department of Occupational Therapy, and confidently passed the Occupational Therapist National Examination. She plans to work as an occupational therapist in Korea and pursue new dreams in the future.

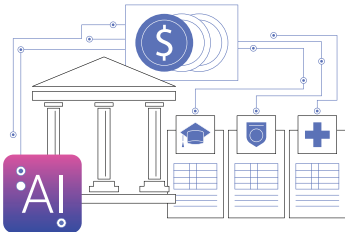

Mr. Trot Winner Lim Young-woong (Jin title)

Lim Young-woong (Practical Music Department, Class of 2010), who emerged as a new hero by winning first place (眞) on TV Chosun's Mr. Trot in March 2020, was selected as a proud Kyungbok alumnus and received the Udang Grand Prize. He donated the entire prize money to the Practical Music Department.

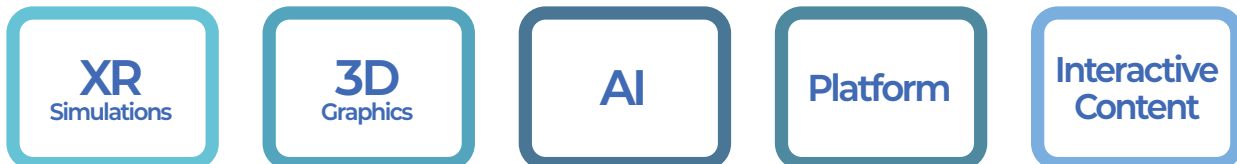

AI-Based XR Simulation Content Master's Program

Professional Master's Degree Program

Training highly skilled professionals with advanced capabilities in AI-based XR simulation technologies. Immersive-content fields related to 3D content production, including 3D graphics, XR simulation, multi-platform development, and interaction technologies. Training highly skilled technical professionals with advanced virtual production capabilities.

5 Core Foundation Technologies

5 Core Application Areas

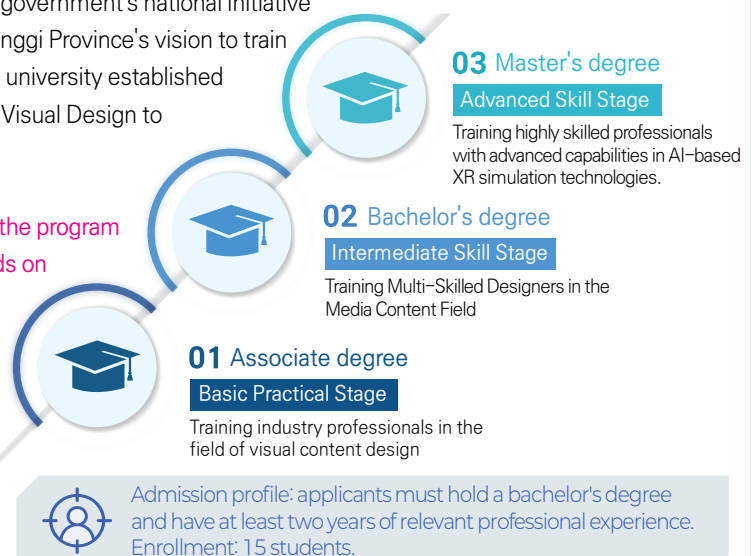

Leader in Advanced Technology

In response to the AI era, Kyungbok University operates the AI-Based XR Simulation Content Professional Master's Program. Based on the Korean government's national initiative to cultivate one million digital professionals and Gyeonggi Province's vision to train 300,000 content-industry professionals by 2040, the university established this professional master's program within the field of Visual Design to develop advanced specialists.

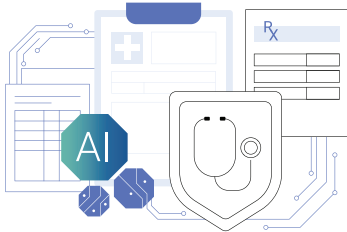

Approved by the Ministry of Education in June 2024, the program provides an integrated educational pathway that builds on associate-degree and advanced-major study to cultivate highly skilled professional master's-level specialists.

The qualification is recognized as equivalent to a master's degree, and graduates may apply to doctoral programs.

AI Digital Healthcare Professional Master's Program

Professional Master's Degree Program

A practice-oriented professional master's program that integrates clinical-domain expertise with data, AI, and digital technologies to develop highly skilled professionals capable of analyzing, designing solutions for, and resolving complex challenges in healthcare settings. The program is designed for working professionals who wish to continue their employment while strengthening their capabilities in digital healthcare innovation.

5 Core Foundational Areas

5 Core Application Areas

AI·Clinical Convergence Specialized Technical Master's

Approved by the Ministry of Education in 2026, Kyungbuk University will operate the AI Digital Healthcare Professional Master's Program beginning in the 2027 academic year.

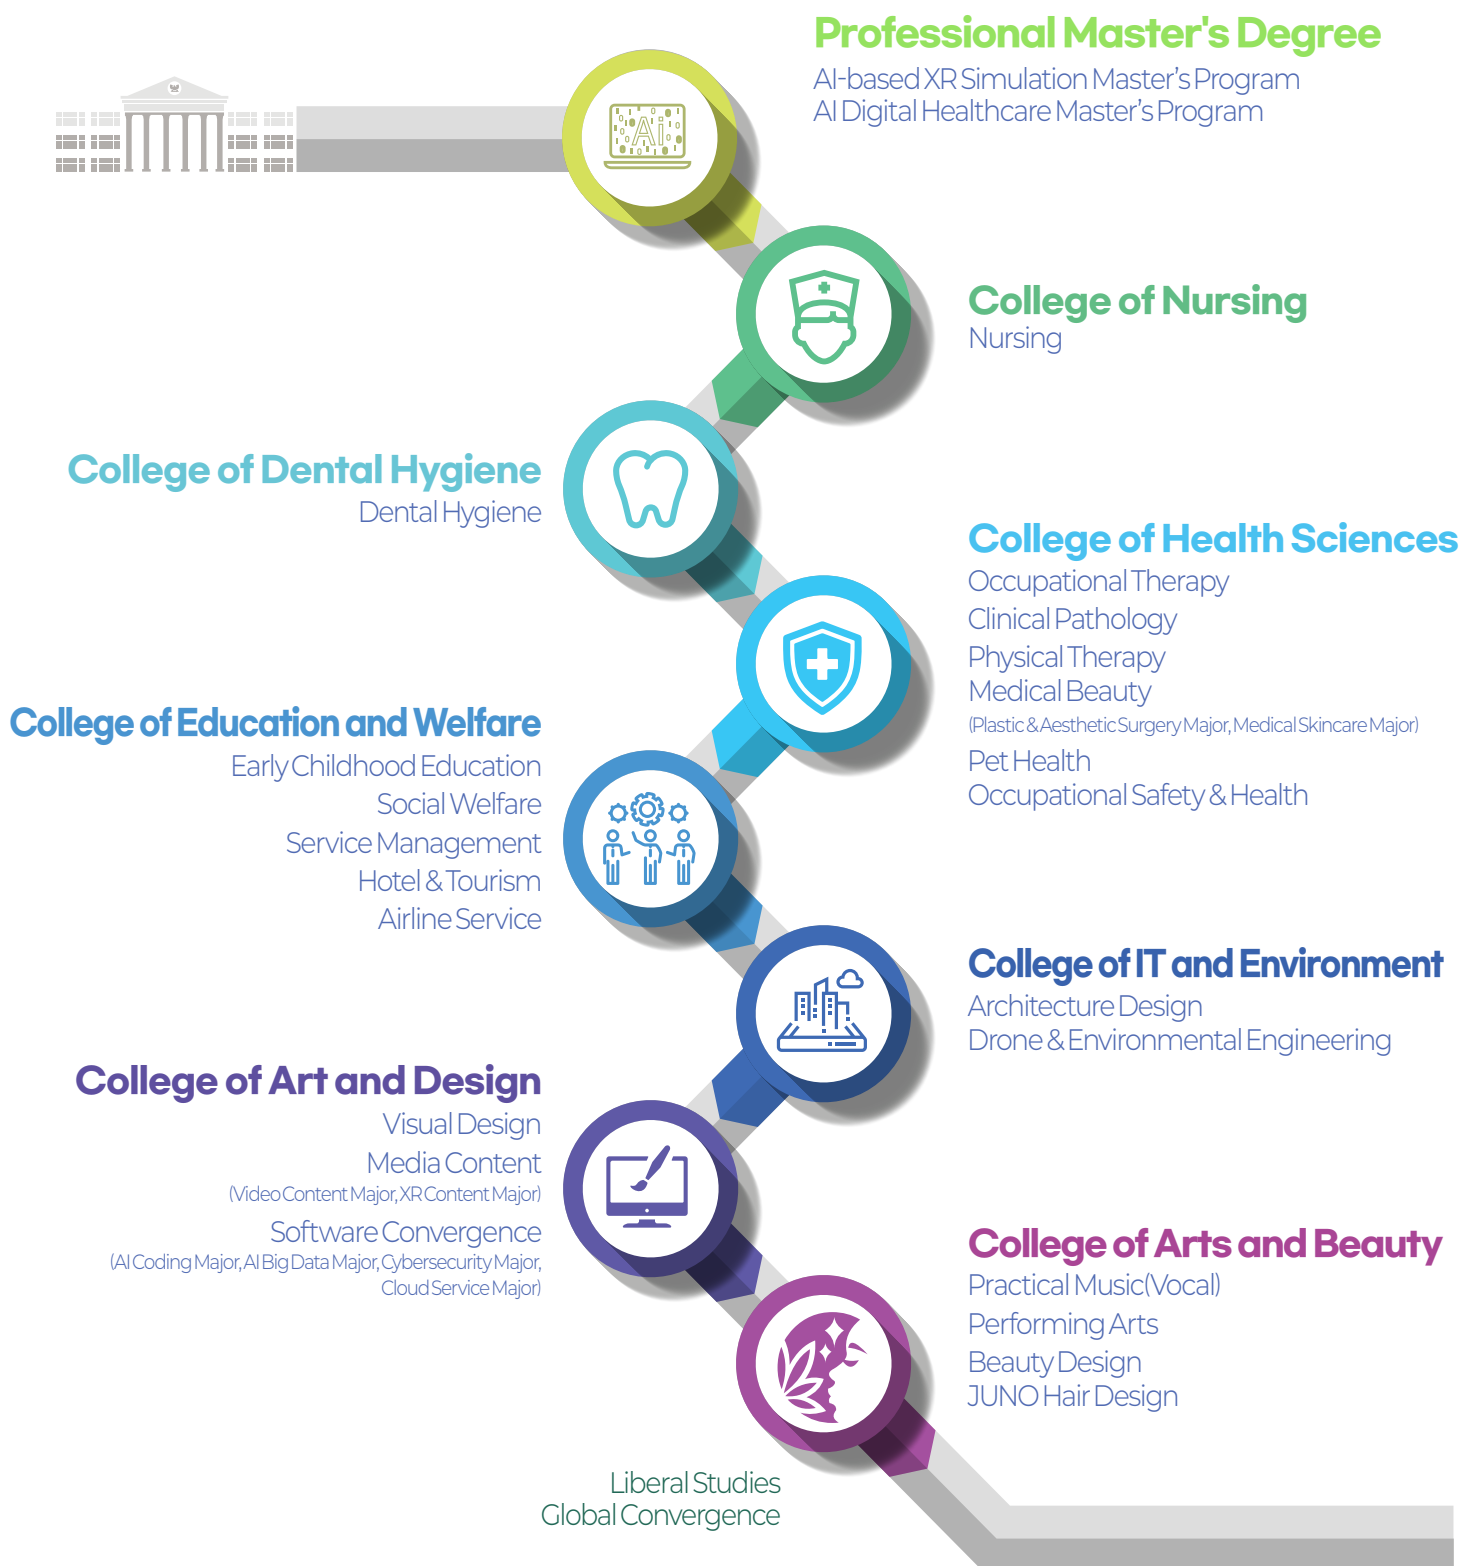

Drawing on the clinical expertise accumulated in the Departments of Nursing and Clinical Pathology, the program integrates healthcare data, artificial intelligence, smart-hospital technologies, and other digital technologies to prepare highly skilled professionals who can analyze and solve complex problems in healthcare practice.

The program provides an integrated pathway combining expertise in nursing and clinical pathology with data, AI, and digital technologies.

The qualification is recognized as equivalent to a master's degree, and graduates may apply to doctoral programs.

Total					No Limit	No Limit	No Limit	No Limit

※Through the Bachelor's Degree Program, students can earn a bachelor's degree equivalent to that awarded by a four-year university.

- 1) Practical Music(Vocal), Performing Arts: Document Evaluation (20%), Practical Skills (80%)
- 2) The Practical Music Department admits only students majoring in vocal performance.
- 3) Bachelor's Degree Program: Upon completion of an associate degree, students may earn a bachelor's degree through the Ministry of Education–approved 'Bachelor's Degree Advanced Major Program'
- 4) Master's Degree Program: Students may obtain a master's degree through the Ministry of Education–approved Professional Master's Degree Program'
- 5) All departments offer daytime programs.
- 6) Liberal Studies Major: Students select their department/major from available 3–year programs (excluding Nursing, Dental Hygiene, Occupational Therapy, Clinical Pathology, Physical Therapy, and Early Childhood Education) at the end of their first semester, with specialized coursework beginning in the second semester.
- 7) Global Convergence major
 - International Medical Welfare (2 Years)
 - Medical Beauty (3 Years)

TOPIK Requirements for International Students by Department:

International students must meet department–specific TOPIK (Test of Proficiency in Korean) requirements:

- Health Sciences Programs (Dental Hygiene, Physical Therapy, Occupational Therapy, Clinical Pathology), Pet Health, and Performing Arts: TOPIK Level 5 or above
- Nursing: TOPIK Level 6
- All other departments: TOPIK Level 3 or above
- The Global Convergence Department is designated exclusively for international students, allowing admission without any TOPIK requirement as Korean language education is included in the first–year curriculum.
- Medical Beauty Department offers a bilingual track for international students. Classes are supported by translation tools, allowing admission without TOPIK or Korean language proficiency.

III. Important Information for Applicants

- The university implements a graduation certification system by department to produce outstanding graduates; Failure to meet graduation certification requirements will result in ineligibility for graduation and degree conferment (degree conferment will not be possible)
- In the event of departmental restructuring after enrollment (division changes, department name changes, curriculum changes, etc.), students must complete credits according to the modified requirements.

- Kyungbok University does not discriminate based on an individual's physical characteristics, beliefs, race, disabilities, or other factors
- Individual admission examination scores and evaluation details will not be disclosed
- Applicants are responsible for any disadvantages that may arise from failure to review or understand the Admission Guidelines

- Academic and eligibility documentation related to admission procedures must be submitted as original documents, and additional documents may be requested if separate verification is required. Failure to submit required documents will result in disqualification (excluded from grade evaluation)
- Submitted documents will not be returned, and application information cannot be corrected after the deadline (contact information changes, excluding department and admission category changes, may be corrected after verification by admissions staff)

- If an applicant is found to have been admitted despite failing to meet eligibility requirements or through fraudulent means, the university may invalidate the admission decision, enrollment, or graduation even after enrollment. In such cases, admission and tuition fees already paid will not be refunded.
- Matters not specified in the Admissions Guidelines will be reviewed and determined by Kyungbok University's Admissions Fairness Management Committee.
- Regardless of whether the number of applicants is above or below the admissions quota, the university may decide not to admit an applicant who is judged not to meet the required academic standards, subject to review by the Admissions Fairness Management Committee.

IV. Visa and Initial Costs Guide

International students admitted to Kyungbok University must obtain a Student (D-2) Visa to pursue a regular degree program in the Republic of Korea

1) Student Visa Information

Category	Visa Type	Eligible Applicants	Notes
Regular Degree Program	D-2 (Study)	Students who intend to study in a regular course at an educational institution above the level of a University College.	This applies to all degree-seeking students entering our university.

2) Essential Documents for D-2 (Study) Visa Application (Example)

The documents required for a D-2 visa may vary depending on the country and the specific Korean diplomatic mission (embassy/consulate). Applicants must confirm the final list of required documents with the Korean diplomatic mission in their country of residence.

Key documents students generally need to prepare are as follows:

- ① Visa Application Form
 - ② Passport (valid for more than 6 months) and a copy of the passport
 - ③ One passport-sized photograph
 - ④ Proof of Final Academic Background (e.g., Final School Graduation Certificate, Academic Transcript) with Apostille or Consular Confirmation
 - ⑤ Financial Support Documents (e.g., Bank Balance Certificate in the student's or parent's name)
 - This must prove the ability to cover expenses for long-term stay and studies, generally requiring a balance of KRW 20,000,000 or more.
 - ⑥ Proof of Family Relationship (if financial documents are in a parent's name)
 - ⑦ Certificate of Admission (issued by Kyungbok University)
 - ⑧ Copy of the University's Business Registration Certificate (issued by Kyungbok University)
- △ Important Notice: The diplomatic mission requires an Apostille or consular authentication for documents proving the applicant's final academic background.

3) Initial Estimated Costs (Example: Department of Medical Beauty, 1st Semester)

Item	Amount (KRW)	Notes
① Tuition Fee (1st Semester)	2,665,000	Amount after applying a 30% scholarship (Tuition Fee: 3,806,000 KRW, 2026 standard)
② Dormitory Fee (6 Months)	1,560,000	260,000 KRW per month for a double room
③ Initial Incidental Fees	100,000	Alien Registration Card (ARC) issuance: 55,000 KRW + Bedding set: 45,000 KRW
Total Initial Estimated Cost (①+②+③)	4,325,000	Total estimated cost after scholarship application.

Scholarship Benefit and Net Payable Amount Example

- Scholarship Condition: Upon obtaining TOPIK Level 3 or completing Level 4 at a Korean Language Institute in KBU or Korean universities.
- Scholarship Benefit: 30% (948,000 ~ 1,162,000 KRW) reduction in 1st-semester tuition.
- The maximum entrance scholarship is 60%.

National Health Insurance Fee

- D-2 visa students are mandatorily enrolled in the National Health Insurance upon arrival in Korea.
- The insurance premium is not included in the initial costs and must be paid monthly by the individual student.
- Health insurance premiums are set differently based on factors like age and gender, with an average of 77,000 KRW per month.

V. Admissions Schedule

Academic Year 2027 Admissions Schedule					
Category	Admission Period				
	First Phase			Second Phase	
	Early Admission Round 1	Early Admission Round 2	Regular Admission	September Intake Round 1	September Intake Round 2
Application Period	September 7 (Mon) ~ September 30 (Wed), 2026	November 11 (Wed), ~ November 25 (Wed), 2026	January 4 (Mon) ~ January 20 (Wed), 2027	June 21 (Mon) ~ July 2 (Fri), 2027	July 19 (Mon) ~ August 11 (Wed), 2027
Document Submission Deadline	October 1 (Thu), 2026 (postmarked by the deadline)	November 26 (Thu), 2026 (postmarked by the deadline)	January 21 (Thu), 2027 (postmarked by the deadline)	July 5 (Mon), 2027	August 12 (Thu), 2027
Practical Examination	October 16 (Fri), 2026	December 4 (Fri), 2026	January 27 (Wed), 2027	–	–
Acceptance Announcement	November 6 (Fri), 2026	December 16 (Wed), 2026	February 5 (Fri), 2027	July 8 (Thu), 2027	August 19 (Thu), 2027
Tuition Payment	November 9 (Mon) ~ November 15 (Sun), 2026	December 18 (Fri) ~ December 24 (Thu), 2026	February 5 (Fri) ~ February 9 (Tue), 2027	July 12 (Mon) ~ July 16 (Fri), 2027	August 19 (Thu) ~ August 25 (Wed), 2027
Issuance of Certificate of Admission	December 1 (Tue), 2026	January 1 (Fri), 2027	February 10 (Wed), 2027	July 14 (Wed), 2027	August 19 (Thu), 2027

※ Documents related to applications must be submitted by the document submission deadline (postmarked by the deadline), and failure to submit will result in disqualification (for applicable candidates only)

VI. Application and Eligibility Guide

Eligibility Requirements

- Applicants must be high school graduates (or expected graduates), or must be recognized under applicable laws and regulations as having an equivalent or higher level of education. Applicants must satisfy both the eligibility criteria and the Korean-language proficiency requirements below (Article 29(2)(7) of the Enforcement Decree of the Higher Education Act).

1) Eligibility Criteria - Meet at Least One of the Following:

- ① A foreign national whose parents are both foreign nationals
- ② A foreign national who has completed the entire school curriculum abroad equivalent to Korea's elementary and secondary education (i.e., all elementary, middle, and high school education completed outside Korea)

2) Korean-Language Proficiency - Meet at Least One of the Following:

- ① TOPIK Level 3 or higher
- ② Completion or expected completion of Level 4 or higher in Kyungbok University's Korean-language program or a Korean-language institute at a university in Korea
- ③ Completion of King Sejong Institute Korean Intermediate 2 or higher (online certificates excluded), or completion of Level 3 of the Ministry of Justice Korea Immigration and Integration Program (KIIP), or a score of 61 or higher on the KIIP pre-assessment
- ④ Passing the Korean Language Proficiency Test administered by Kyungbok University's International Language Institute Korean-language examination, or be recognized by the President of the University as possessing an equivalent level of Korean proficiency. Applicants admitted on the basis of the university's internal examination must obtain TOPIK Level 3 or higher within six months after enrollment.

※ Even when the requirements above are satisfied, an applicant may be denied admission if the university determines that the applicant lacks the Korean-language proficiency required for academic study. The university may alternatively grant conditional admission subject to completion of a language program.

Required Documents

Required Documents			Details
1	Application Form		Available for download from the website
2	High School / University Graduation (or Expected Graduation) Certificate	Applicants who completed their education in China	Chinese high school graduates: CHSI Academic Credential Verification Report (English) (1 copy) (Applicants whose academic credentials cannot be verified through CHSI, including graduates of secondary vocational schools: Academic credentials must be verified in accordance with the standards designated by the Korean Ministry of Justice.)
		Applicants who completed their education outside China	Graduation (Expected) Certificate with Apostille or consular authentication (1 copy)
3	High School (University) Transcript		Original transcript issued by the high school (university) (1 copy)
4	Family Relationship Documents	Chinese nationals	<ul style="list-style-type: none"> Notarized copy of the applicant's and parents' Household Register (Hukou) (1 copy) If the family members are registered in separate household registers, Certificate of Kinship (1 copy)
		Non-Chinese nationals	Applicant's birth certificate (1 copy)
		Common	Certificate confirming parents' divorce or death, if applicable
5	Identification Documents for Applicant and Parents		Copy of applicant's passport (1 copy) Copies of parents' passports (1 copy each) If a parent does not have a passport, copy of the parent's national ID card (1 copy) If the applicant or parent(s) reside in Korea, copy of the Residence Card (Alien Registration Card) (1 copy)
6	Proof of Korean Language Proficiency		TOPIK score report or certificate of completion from the Korean language program at the university
7	Other Documents		Elementary/Middle School Graduation Certificates (only for applicants who completed their entire education abroad) For applicants residing outside Korea: Proof of financial ability (Applicant's or parent's bank balance certificate showing at least KRW 20,000,000) For D-4 visa holders in Korea: Academic transcript and attendance certificate from the Korean language program at the university (1 copy each)

3) Application Distribution and Submission

A. Period: Refer to the Admission Schedule table

B. Submission Location: Kyungbok University Office of International Education

(Namyangju Campus, Woodang Hall Room 3209)

- Domestic and overseas mail submissions will be accepted only if the documents arrive at the university by the application deadline and closing time.
- Only documents for which All missing or incomplete documents must be fully submitted by the deadline will be accepted.
- If any required documents remain incomplete by the deadline, the university reserves the right to reject the submission.
- Kyungbok University Office of International Education
- 425-33 Kyungbokdaero, Jinjeop-eup, Namyangju-si, Gyeonggi-do, Korea 12051
- 2nd Floor, Woodang Hall, Kyungbok University

C. Other Information: Submitted documents will, in principle, not be returned. However, if original documents are submitted, they may be returned after the completion of all academic studies.

VII. Grade Evaluation Methods

Evaluation Type	Departments / Programs	Evaluation Components	Total
Document Evaluation	All departments except Practical Music (Vocal) and Performing Arts	Documents: 100%	100%
Practical Examination	Practical Music (Vocal), Performing Arts	Documents: 20%, Practical Examination: 80%	100%

※ Regardless of whether the number of applicants exceeds or falls below the admissions quota, Kyungbok University may decide not to admit applicants who are deemed not to meet the university's required academic standards, subject to review by the Admissions Fairness Management Committee.

Practical Examination Evaluation Method

1) Practical Examination Requirements

Department	Examination Requirement	Important Instructions
Practical Music (Vocal)	<ul style="list-style-type: none"> Perform one freely selected song from Korean popular music or pop repertoire (approximately 2 minutes). ※ An additional song in a different genre may be requested depending on the circumstances. 	<ul style="list-style-type: none"> Prepare the accompaniment track on a USB drive (CDs are not accepted). Edit the track to approximately 2 minutes, avoiding repetitive sections where possible. All pieces must be performed from memory. Submit five copies of the sheet music.
Performing Arts	<ul style="list-style-type: none"> Select two of the following: free acting performance, musical theatre song (including a highlight section), or movement performance. 	<ul style="list-style-type: none"> Prepare any required MR/backing track on a USB drive and submit it on the day of the practical examination. CDs are not accepted. The entire performance should be approximately 3 minutes.

2) Important Instructions for the Practical Examination

- A. The practical examination is conducted only for Practical Music(Vocal) and Performing Arts. Applicants who do not attend will be disqualified and excluded from admissions score evaluation.
- B. On the practical examination date, applicants must bring a photo identification document (a student ID is acceptable) and any required personal materials, and must report to the designated location by the designated check-in time.
- C. Applicants who receive a practical examination score of 30 points or below will be disqualified.
- D. If the number of applicants is high, practical examinations may also be conducted on the day following the originally announced examination date.

VIII. Scholarship and Refund Information

SCHOLARSHIPS

A. International Student Admission Scholarships

Scholarships are awarded differentially based on TOPIK level:

TOPIK Level	–	TOPIK Level 3	TOPIK Level 4	TOPIK Level 5	TOPIK Level 6
Domestic University Korean Language Program Completion	Passed Korean Language Test	Completed Level 4	Completed Level 5	Completed Level 6	–
Scholarship Amount	30% of tuition		40% of tuition	50% of tuition	60% of tuition

B. International Student Continuing Enrollment Scholarships

Scholarships are awarded differentially based on the previous semester's grade point average:

Previous Semester GPA	70–74.9	75–79.9	80–84.9	85 and above
Scholarship Amount	25% of tuition	30% of tuition	35% of tuition	40% of tuition

TUITION AND FEES

Admission Fee

- Completely waived for all international students admitted through the international student track

Tuition

- Standard tuition for domestic students ranges from 3,100,000 to 3,810,000 KRW per semester. For international students, tuition is calculated by deducting the scholarship amount indicated in the table above from these base amounts.

ADMISSIONS INQUIRIES

- Office of International Education (Namyangju Campus, Woodang Hall Room 3209)
- Phone: 031-570-9880, 9885
- E-mail: jkahn@kbu.ac.kr, jkahn111@naver.com

Refund Guide

- Before the issuance of the Standard Certificate of Admission: 100% refund
- After the issuance of the Certificate of Admission and before February 28: Refund will be made after deducting an administrative fee of 50,000 KRW
- From March 1 onward: The refund policy for Korean students will be applied

Refund Request Form

Dormitory Information

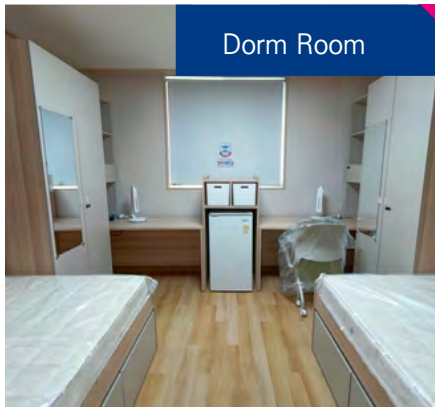

Sungnyewon 승려원 (Female Students Only)

- Double Room: 260,000 KRW per month

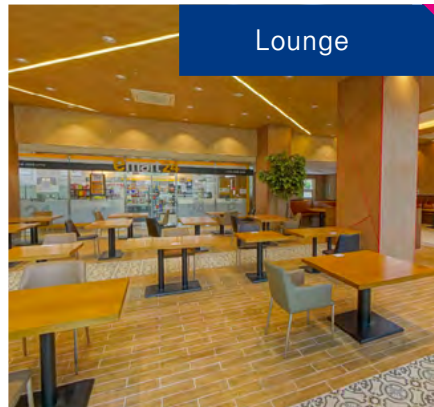

Yangdeokwon 양덕원 (with Separate Wings for Male and Female Students)

- Double Room: 260,000 KRW per month
- Triple Room: 190,000 KRW per month

Roommate assignments are, in principle, made by pairing students of the same nationality or a similar linguistic/cultural background.

Dorm Room

Lounge

Cooking Studio

Kyungbok University Korean Language Program

Kyungbok University Korean Education Center (KEC) has been offering Korean language and culture education to international students since March 2018. Students from all over the world can study Korean systematically according to their proficiency level and prepare for university admission or the TOPIK test.

Namyangju Campus

- 4 hours a day, 5 days a week
(10 weeks per semester, total 200 hours)
- Balanced instruction in speaking, listening, reading, and writing
- Includes Korean cultural experience programs for deeper understanding of life in Korea

Seoul Education Center

- 4 hours a day, 4 days a week
(10 weeks per semester, total 160 hours)
- Focus on practical communication and everyday Korean

Both campuses operate eight terms/sessions per year (Spring 1·2, Summer 1·2, Fall 1·2, Winter 1·2). Students are eligible to apply for the General Training Visa (D-4). For admission inquiries, please visit the official website: eng.kbu.ac.kr

IX. Kyungbok University Campus Guide

Jiwoon Hall

- Departments: Nursing / Dental Hygiene / Clinical Pathology
- Major facilities: Nursing Simulation Laboratory (4F) / Dental Care Center (5F) / Biomedical Center, Department of Clinical Pathology (6F)
- Other facilities: Peony Cafeteria / Cafe Lari / LINC Project Office / Center for Teaching and Learning Development

Woodang Hall

- Departments: Early Childhood Education
- Major facilities: Woodang Library / Child Development and Creativity Center (3F) / PBL Education Evaluation and Accreditation Center (5F).
- Other facilities: Reading Room / Seminar Room

Changjo Hall

- Departments: Visual Design / Media Content / Occupational Safety and Health Software Convergence / graduate-level convergence programs
- Major facilities: General Administration Center / Media Art Center
- Other facilities: Azalea Student Cafeteria / robotic coffee kiosk / convenience store

Seondeok Hall

- Departments: Architecture Design / Drone & Environmental Engineering / Social Welfare / Medical Beauty / Service Management / Airline Service / Hotel & Tourism / Beauty Design / JUNO Hair Design
- Major facilities: Data Business Convergence Center / 3D Printing Center / Medical Body Management Center / KBU Beauty Center / JUNO Hair Modern Zone / Food & Beverage Laboratory / ADL Laboratory / Airline Service Mock-up / CAD Laboratory / Future Spatial Convergence Design Center

Munhwa Hall

- Departments: Practical Music(Vocal) / Performing Arts
- Major facilities: Studio KUM / Hero Studio / Ensemble Room
- Other facilities: Woodang Art Hall / Grand Hall

Chunghyo Hall

- Departments: Occupational Therapy / Physical Therapy / Pet Health
- Major facilities: Advanced Health Science Center / Pet Clinical Center / Dog Playground

Gymnasium

- Major facilities: Fitness Center / GX Room
- Other facilities: Shower Room

Yangdeokwon - Dormitory 1

- Dormitory 1 at the Namyangju Campus accommodates 698 students in double-occupancy rooms. Rooms and common areas provide amenities such as wardrobes, bookshelves, and refrigerators to support a comfortable study environment.
- Amenities: residence supervisor's office, laundry room, lounge, convenience store, cooking studio, multipurpose room, unmanned parcel lockers

Sungnyewon - Dormitory 2

- Dormitory 2 has 10 above-ground floors and one basement level, with 333 rooms accommodating 637 students. It was built to provide a supportive academic environment and attract talented students.
- Amenities: Health Care Center, laundry room, bakery, convenience store, cooking studio, multipurpose room, lounge, unmanned parcel lockers

Support for International Students

1) Visa & Administrative Support

- Visa application agency service.
- Visa extension agency service provided by the office.

2) Cultural & Extracurricular Activities

- Support for student club activities.
- Monthly cultural experience programs and special Korean cultural programs during major holidays (e.g., Lunar New Year, Chuseok) provided free of charge.

3) Academic Support & Guidance

- Overseas Employment Support Program: Free English language training in Singapore (during summer/winter breaks).
- Overseas Volunteer Program: Opportunity to participate in departmental overseas volunteer programs (during summer/winter breaks).
- Other Activities: Active participation in various external activities and engagements is encouraged.
- Tutoring and mentoring programs with Korean students.
- Regular and ad hoc advising and counseling on academic, daily life, and career matters available with: Department advisors/professors, Counseling Center staff, Office of International Education staff.

New Student and Parent Counseling Phone Information

Category	Phone Number	Consultation Content
Admission Counseling	031) 570-9880, 9885	Admission procedures and disability admission inquiries
On-Campus Scholarships	031) 570-9881	On-campus scholarship information
Dormitory Admission Counseling, Free Shuttle Bus	031) 570-9885	Dormitory admission and living information, shuttle bus usage inquiries
Tuition Payment and Refunds	031) 570-9881	New student tuition payment and refunds

※ Applicants who may experience difficulties due to visual, hearing, or other disabilities should contact the Office of International Education (031-570-9880, 9885) in advance.

Nursing Science and Nursing Care Center

Department of Nursing

Integrated Nursing Skills Competency Enhancement Practice Center
State-of-the-art hospital-like environment specialized in simulation practice space for emergency, trauma, and infection control for high-acuity patients

Dental Care Center

Department of Dental Hygiene

State-of-the-art dental hygiene practice center reflecting the new medical environment

Biomedical Center

Department of Clinical Pathology

Integrated practice space for enhancing in vitro diagnostic testing job competency

Advanced Health Science Center

Department of Physical Therapy

Robot-assisted physical therapy practice center with practice space for gait robots, upper limb robots, and cognitive and activities of daily living training using virtual reality (VR)

Obesity Clinic Center

Department of Medical Beauty

Field-mirrored learning space enabling body composition analysis and body management practice

Animal Hospital Clinical Center

Department of Pet Health

Clinical center for developing expertise in companion animal specialized fields (healthcare, behavioral training, and grooming)

ICC Center

Department of Occupational Safety & Health

Industrial safety accident prevention
experience center using VR and 3D
motion simulators

PBL Practice Evaluation
Certification Center

Department of Early Childhood
Education

Center for PBL education integrating
play and classroom spaces – practical
education space for developing character
and creative convergence competencies

ADL Practice Room

Department of Social Welfare

Medical welfare care competency
development clinical practice center

Retail Platform 4.0

Department of Service Management

Unmanned store management system based on virtual fitting and electronic tags
– ONE-STOP information system for analyzing, processing, and editing store operation-related data

Aircraft Model Practice Room

Department of Airline Service

Global aviation service specialist training center featuring actual aircraft model replicas

Food & Beverage Practice Room

Department of Hotel & Tourism

5-star hotel standard practice room for field-oriented education including beverage preparation, cocktail mixing, and customer service

Future Space Convergence Design Center

Department of Architecture Design

Architectural design, interior design, VR, 3D modeling, integrated learning space

Drone Practice Room

Department of Drone & Environmental Engineering

Talent development to lead the next-generation drone industry

Creative IT Center

Department of Software Convergence

Seoul Internet and artificial intelligence-centered maker space

Media Art Center

Department of Visual Design

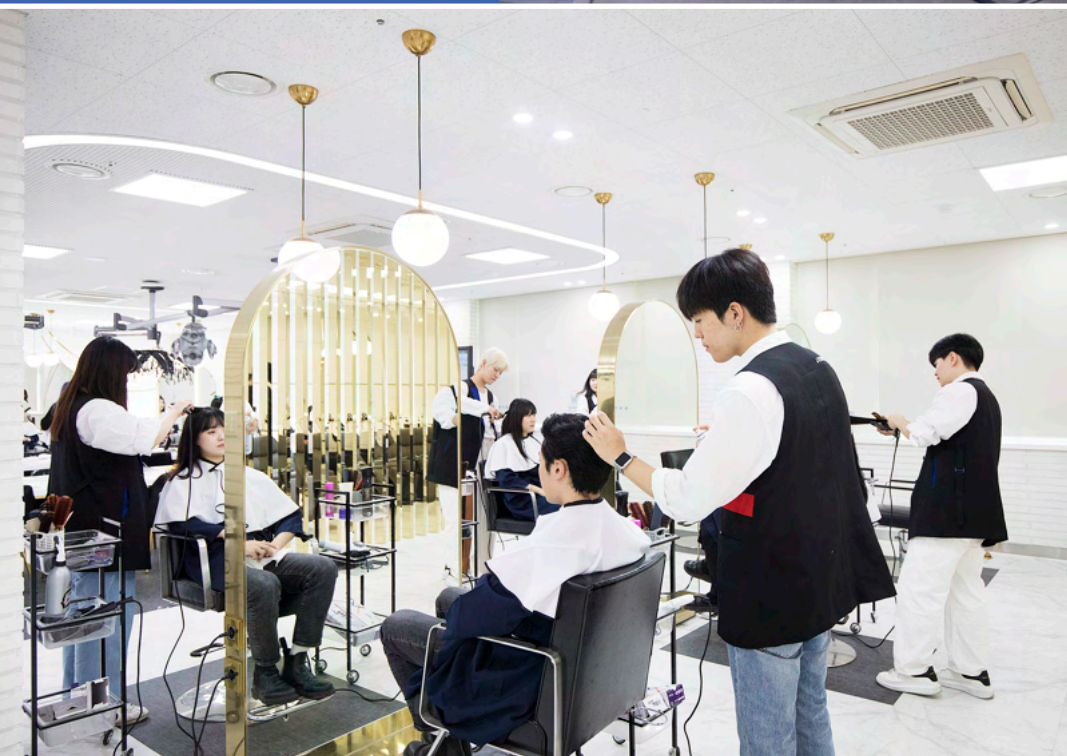

Cradle of multi-masters designing media content

Media Art Center

Department of Video Media Content

Media creator development utilizing immersive content (VR/AR) – Comprising VR AR Test Lab and Web/Motion Design Lab, this practice space nurtures multi-masters and creators who design various media content

JUNO Hair Stylist Zone

Department of JUNO Hair Design

JUNO Hair Stylist Academy, operated by a leading global hair brand

Recording Studio

Department of Practical Music

State-of-the-art music facilities leading the 21st century multimedia era

Studio KUM

Department of Performing Arts

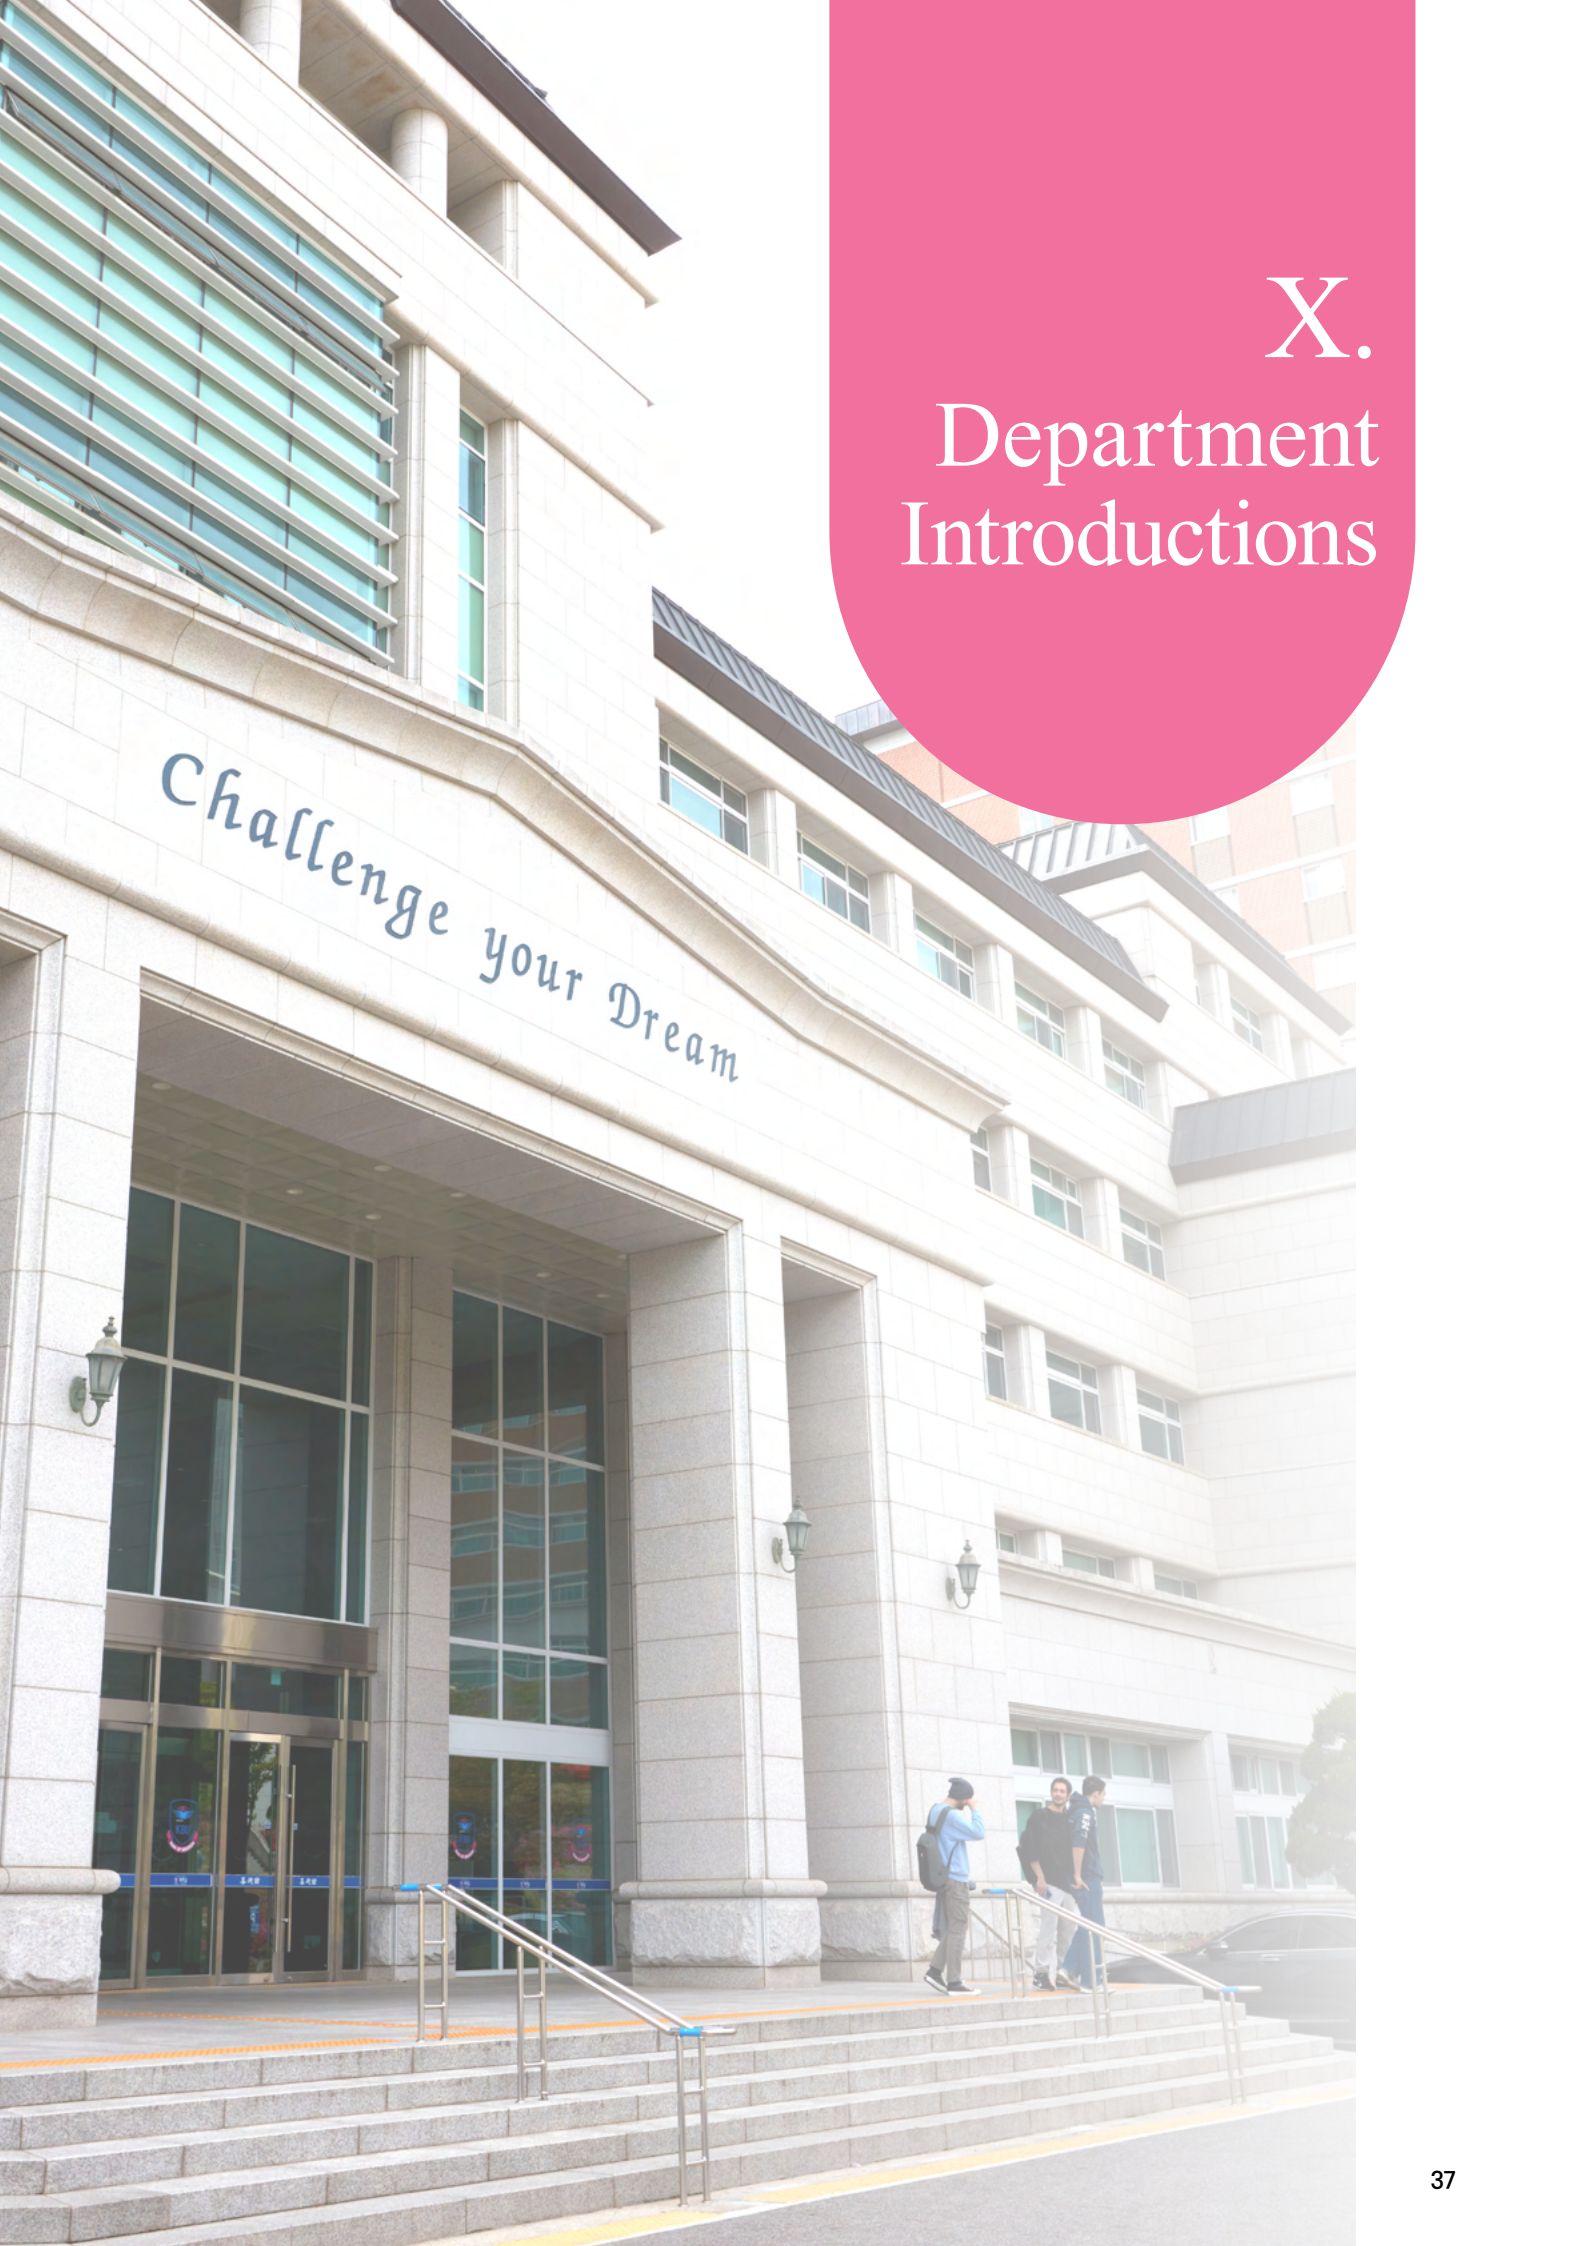

Theater for practical education centered on drama and musical creation and performance

CAD Practice Room

Department of Architecture Design

Eco-friendly architecture specialized library enabling computer-aided design and analysis, and blueprint creation practice

X. Department Introductions

Challenge your Dream

Dept. of Nursing

Developing competent nursing professionals who combine strong character with practical clinical capabilities.

- Prepares nurses with professional competence and a commitment to compassionate care.
- Nursing Education Accreditation: five-year accreditation for the Bachelor of Science in Nursing program awarded in 2022.

#5-Year Nursing Education Accreditation #Advanced Training Facilities
